Power Your Business With the GT4

Fuel productivity and efficiency with the GT4, a quality data collection terminal that offers an impressive array of sophisticated capabilities.

New features, aesthetic enhancements, and performance improvements combine to set the standard for Linux-based devices for years to come.

Durable and Robust Hardware

The GT4's durable and robust casing has been designed for installation across a wide spectrum of workplace environments. Its 4.3" high-resolution color screen enables time and attendance and employee self-service data to be captured and displayed on the terminal with optimal clarity.

Enhanced User Experience

To enhance the user experience, the keypad incorporates a tactile and audible response to key presses, promoting accurate and reliable data entry. It also includes eight function keys that can be configured to provide powerful nested menus, to allow for the creation of intuitive menu-driven applications.

The GT4 terminal features durable casing, a 4.3" high-resolution color screen, and an alphanumeric keypad with eight function keys.

Choice of Reader Technologies

The GT4 is available with a broad choice of reader technologies, including a fingerprint reader and a variety of contactless readers.

Touchless Solution

If health and safety are a concern within your workplace, the terminal's proximity technology supports a secure and touchless environment, helping to prevent the spread of germs and illness among your employees.

Key Features

Take advantage of the GT4's up-to-date features:

- Linux operating system

- 4.3" display

- Alphanumeric keypad with 8 function keys

- Finger reader

- Multi card reader

- GT Connect

- Power over Ethernet (PoE)
